(1) Adopted but not implemented

(2) Not applicable to military aircraft

(3) Before crossing international FIR boundaries a position report is required for aircraft entering Italian airspace

(4) VMC minima are provided for guidance to pilots with regard to contingency situations which include reference to VMC (Communication failure)

(5) Lower flight visibility to 1500 M is permitted for flights operating at speeds of 140 KTS or less.

Helicopters may operate in less than 1500 M flight visibility, if manoeuvred at a speed which gives, having regard to visibility, adequate opportunity to observe other traffic or any obstacles in time to avoid collision.

(6) Applicable to airplanes and helicopters only

(7) Unless otherwise specified in RAC 4

(8) Unless otherwise specified in ENR 2.1.1 and RAC 4
